Subject: Application to Vary the Premises Licence at Golden Lion Public House, 54 Bedhampton Road, Bedhampton.

We wish to add our concerns regarding the application to vary the premises licence, this to include some extensions which have encouraged more outside drinking and could pave way to more disturbance to the local residents.

The diagrams show seating outside alongside the right hand side fencing, there are a lot more tables then just those but these are far too close to residential properties. These are in the green area which is not licensed yet people are consuming alcohol at these tables so should they too not be included as licensed?

As he has closed off his car park and made it a seating area there is now little or no parking and being the next road along often customers park just inside our road which is another safety hazard. Parking is immediately outside the only entry/exit to the building and presents its own safety issue.

Therefore we object to this application on the grounds that it will become a nuisance to people living within the proximity of the Golden Lion and potentially risk to safety due to limited parking.

Regards
