2	Has the Council changed its policies and procedures relating to the Community Trigger since the previous review?	Yes the Council now operates a Partnership Action Group (PAG) which acts as a forum for the consideration of areas and indeed repeat victims that have been identified. If so who has made some changes and what are they?	<p>Partners will raise individuals and areas that have been identified as repeat issues where the community trigger criteria may in the future be reached.</p> <p>The Police have instigated a process to identify individuals and areas which are "high demand" on theirs and other partners i.e. ambulance and fire service to identify vulnerability.</p> <p>The Police also have a process of flagging vulnerable victims with their call centre to give a graded response.</p>
