Agenda Item 12

HAVANT BOROUGH COUNCIL
COUNCIL
7 November 2018

ITEM 12 - QUESTIONS UNDER STANDING ORDER 23

	Question from	Question to	Question
1.	Cllr Carpenter	Cllr Pike	Upon my weekly walks around my ward, Battins, I have noticed two Electric Vehicle Charge points in process of installation at Tidworth Road Car Park. This is an area earmarked for future regeneration. Could not a more suitable location have been sought, such as behind Greywell shopping centre, larger car park with toilet facilities?
2.	Cllr Carpenter	Cllr Bowerman	I understand the 'A Cllr Can' campaign has reached over 6,770 people. Can I enquire if plans are in place for more events to extend the programme as only two were held in Havant Town Centre in September?
3.	Cllr Davis	Cllr Pike	<p>Ref. Regeneration.</p> <p>I refer to an article in "First" Magazine for local Government, November Edition -No.629</p> <p>On page 5 an article refers to the "European Social Fund". Of the £3.1Billion allocated to the UK, £1.6Billion has yet to be applied for. If it is not allocated it will be returned to EU coffers. These funds can be used; to create jobs; support S.M.E.'s; deliver skills training ; Invest in Critical Transport and Digital Infrastructure.</p> <p>Q1. Have you applied for any of this fund to help with the regeneration of our borough and provide the Critical transport infrastructure we desperately need?</p>

			<p>Q2. Could we not plan for a Rapid Transport System (i.e. a Tram system) to help reduce our dependancy on cars, reduce our rush hour traffic and its consequent pollution? This would be a very positive and visible attraction to the people and businesses we hope to bring to our borough.</p> <p>The opening paragraph I believe is necessary to explain to other Cllrs the reason for the question.</p>
4.	Cllr Davis	Cllr Turner	<p>Q1. Would you explain what income we receive from the " Havant Sport and Leisure Trust" contract.?</p> <p>Q2. As Havant Borough Council owns this land should we not be receiving rent.?</p> <p>Q3. Will this be shown in the next Budget?</p> <p>Q4. How much has the Council received since this Contract was signed?</p>
5.	Cllr Carpenter	Cllr Wilson	<p>I note from your report you attended PUSH joint committee recently. Could you please indicate the highlighted 'hot spots' in our region , and the follow up work planned to mitigate this worrying aspect ?</p> <p>Did the study raise any concerns of air quality near schools and if so will these areas be treated as a priority with health of our children potentially being placed at risk ?</p>
