9 Capita Performance September 2019

The Client Relationship Director introduced the report and explained the performance for each element of the contract.

In response to questions it was confirmed that any scrutiny of the contract would be carried out locally by the overview and scrutiny function of each partner authority and that the minutes of any such meeting and those of the joint committee formed a good evidence base to record the thoughts of members.

The committee was concerned that the KPI's did not necessarily reflect the actual performance of the services and that further monitoring below KPI level could be explored. The committee did however appreciate that this could have a cost implication.

FIVE COUNCILS CORPORATE SERVICES JOINT COMMITTEE
28 October 2019

The committee requested that its disappointment be recorded at the number of service areas that were delivering unacceptable levels of performance.

The committee recognised the long term remaining for the contract and requested that suggestions for service improvement be considered at a future meeting of the committee.

The meeting commenced at 4.00 pm and concluded at 5.05 pm

Recommendation:

To note the Contract performance for the Month of November reported in December 2019

1 Executive Summary

Performance of the Capita contract is monitored monthly. The contract contains a range of Key Performance Indicators and Performance Indicators. The purpose of this report is to provide the Joint Committee with the current performance status.

2 Summary

Executive Summary for November 2019 period as presented by Capita.

This month we are reporting on Monthly indicators. As usual the commentary below relates only to the exceptions and further details can be found in each individual performance tile. IT, Customer Services and Land Charges met all their indicators in month.

This has been a busy month in the HR and Payroll service with the implementation of the pay awards and onboarding resources for the elections, that said Payroll and Pensions achieved all measures and recruitment had a service threshold failure with a single reference request not being process in time for South Oxfordshire. Exchequer had a PI failure on PI004 Cash Management which was again due to the non-arrival of G4S to make collections in Mendip and East Hants. We have previously stated that we are currently in the process of contracting to a different supplier for this and those conversations should conclude shortly. There was also a Minor KPI failure for invoice payments where an invoice for Saba in South Oxfordshire was not taken off hold appropriately.

Accountancy had two PI failures; on PI011 Reconciliations a review of the Mendip historical reconciliation activities is taking place to ensure this does not happen

again; and on PI013 where the limit on one of the bank accounts was breached in South Oxfordshire.
