DEX/GARH - Conversion of a garage to a habitable room(s)	120.00	120.00	<b>V</b>	

**Works not shown on the table**

Where works fall outside of the categories shown in this prices book, please contact Building Control for an individual quote, e.g., extensions over 60m<sup>2</sup>, regularisation applications. Individual quotes may require plans to be submitted before a quotation can be given.

**Multiple works applications**

Where more than one category of work is being carried out to a single domestic property reductions in price are available. Such reductions only apply where all works are submitted as one application and are carried out at the same time, otherwise standard individual charges apply to the respective elements (plan charge, inspection charge or building notice charge). Reductions can be calculated by reducing the lower priced additional categories of work by 50% of the price, e.g, a loft conversion and a garage conversion – 50% discount on the total garage conversion charge. Alternatively the charge may be individually determined with the agreement of the applicant and the local authority – please contact Havant Building Control if you wish a multiple works scheme to have an individual charge.

**Disabled persons**

Work for the benefit of disabled persons may not incur a charge – please refer to the general guidance notes for further information.

**Part single and part two storey extensions**

Where part of an extension is single storey and part is two storey the charge for a two storey extension will be applied.

**First floor extensions**

Where a first floor extension is constructed over an existing single storey structure the charge applied is that for a single storey. Additional charges may be applied when the relevant building work, or part thereof, has not been carried out by a person referred to in regulation 7(5) (g) or (h) of the Building (Local Authority Charges) Regulations 2010 (self-certification schemes). It is additional to the inspection charge, building notice charge or regularisation charge. Such works include where work in connection with a controlled electrical installation, gas installation, solid fuel burning appliance or oil-fired installation, is not carried out by a person registered under a competent persons scheme or is unable to demonstrate competence to carry out the relevant work through submission of appropriate qualifications and certification.
