1. Role of Internal Audit

The requirement for an internal audit function in local government is detailed within the Accounts and Audit (England) Regulations 2015, which states that a relevant body must:

‘Undertake an effective internal audit to evaluate the effectiveness of its risk management, control and governance processes, taking into account public sector internal auditing standards or guidance.’

The standards for ‘proper practices’ are laid down in the Public Sector Internal Audit Standards [the Standards - updated 2016].

The role of internal audit is best summarised through its definition within the Standards, as an:

‘Independent, objective assurance and consulting activity designed to add value and improve an organisations operations. It helps an organisation accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control and governance processes’.

The Council is responsible for establishing and maintaining appropriate risk management processes, control systems, accounting records and governance arrangements. Internal audit plays a vital role in advising the Council that these arrangements are in place and operating effectively.

The Council’s response to internal audit activity should lead to the strengthening of the control environment and, therefore, contribute to the achievement of the organisations objectives.

2. Purpose of report

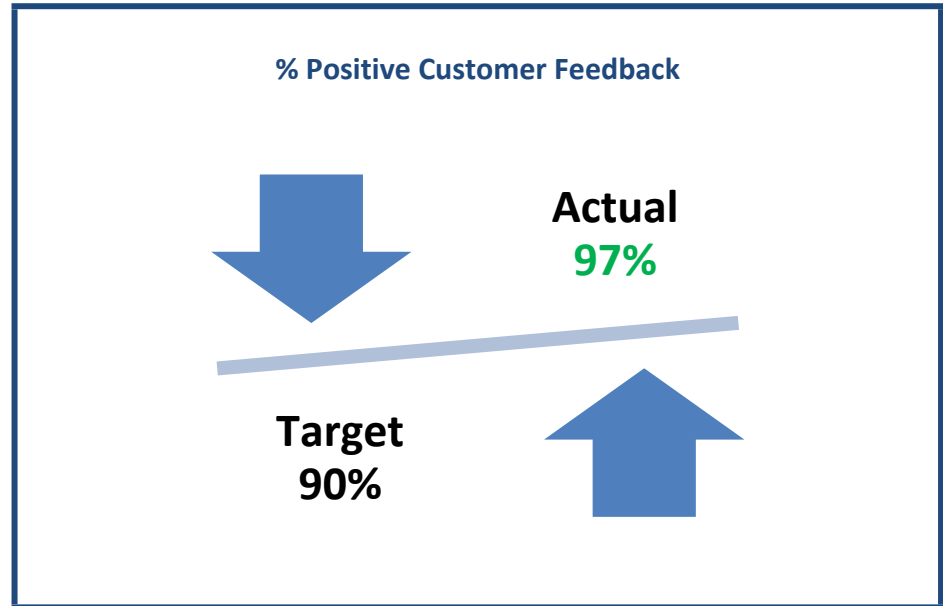

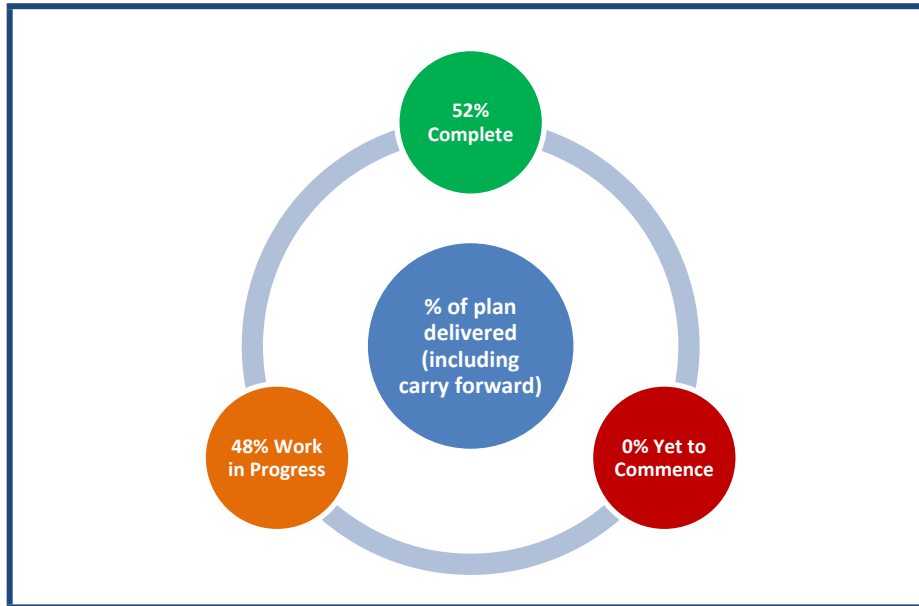

In accordance with proper internal audit practices (Public Sector Internal Audit Standards), and the Internal Audit Charter the Chief Internal Auditor is required to provide a written status report to ‘Senior Management’ and ‘the Board’, summarising:

- The status of ‘live’ internal audit reports;
- an update on progress against the annual audit plan;
- a summary of internal audit performance, planning and resourcing issues; and
- a summary of significant issues that impact on the Chief Internal Auditor’s annual opinion.

Internal audit reviews culminate in an opinion on the assurance that can be placed on the effectiveness of the framework of risk management, control and governance designed to support the achievement of management objectives of the service area under review. Assurance opinions are categorised as follows:

Substantial	A sound framework of internal control is in place and operating effectively. No risks to the achievement of system objectives have been identified
Adequate	Basically a sound framework of internal control with opportunities to improve controls and / or compliance with the control framework. No significant risks to the achievement of system objectives have been identified
Limited	Significant weakness identified in the framework of internal control and / or compliance with the control framework which could place the achievement of system objectives at risk
No	Fundamental weaknesses identified in the framework of internal control or the framework is ineffective or absent with significant risk to the achievement of system objectives

3. Performance dashboard

Compliance with Public Sector Internal Audit Standards / Local Government Application Note

An 'External Quality Assessment' of the Southern Internal Audit Partnership was undertaken by the Institute of Internal Auditors (IIA) in September 2015. The report concluded:

*'It is our view that the Southern Internal Audit Partnership 'generally conforms' (top grading) to **all** of the principles contained within the International Professional Practice Framework (IPPF); Public Sector Internal Audit Standards (PSIAS); and the Local Government Application Note (LAGN).*
