**Report by: Carl Mathias**

**Key Decision: No**

---

**1.0 Purpose of Report**

1.1 To set the service charges for the collection of garden waste for 2021/22.

**2.0 Decision**

2.1 To agree the changes as per Appendix 1 to the current charges for the collection of garden waste, including the early bird discount, the increase is calculated on the Consumer Price Index increase by NSE as per the Service Agreement.

**3.0 Issue**

3.1 To agree the changes to the charges for 2021/22 in relation to the collection of garden waste.

3.2 It is necessary to agree to the garden waste collection service charges in advance of the budget due to the:

- success of this service and the increased workload demands placed on the Customer Services Team
- need to arrange the necessary operational resources required to deliver the service
- the need to compile customer information, route optimisation, bin deliveries and bin retrievals

**4.0 Implications**

4.1 **Resources:** None

4.2 **Legal:** None

**4.3 Finance:**

This represents increases of 2%. These increases are included into the budget setting process each year. These increases are agreed through delegated sign off to allow renewal letters to be in December.

**4.3 Strategy:** *This will comply with the following strategies:*

- To cover the extra cost of providing this service and keeping the increase to a minimum so to increase our customer uptake to generate more income from this service.

**4.4 Risks:** Delaying the process would put significant pressure on the Customers Services Team which would have an adverse impact on the services that they deliver on behalf of other service areas
